

CONCRETE GENIUS®

MOBILE WET BATCH PLANT

Operations

Production Capacity	200 yd ³ /hr
24hr Capacity	4,000 yd ³
Max Capacity	220 yd ³ /hr for 20 min/hr
10yd³ Barrel Truck loading time	3.5 min (10 sec between batches)
# Barrel Trucks Staged at the Same Time	2
Setup Time to Operate	1-2 hrs
Teardown Time to Move	1-2 hrs

Aggregate

Storage	>40 yd ³
# of Aggregates	2, 3, 4
# with Auxiliary Agg Bin	5, 6 (In Design)
Aggregate Size	0-45mm
Measurement	Load Beam x 6 per Bin
Feed	2 x 24" Belt (2 x 200 tons/hr)
Moisture Sensing	Continuous for each Aggregate

Batch Plant Size

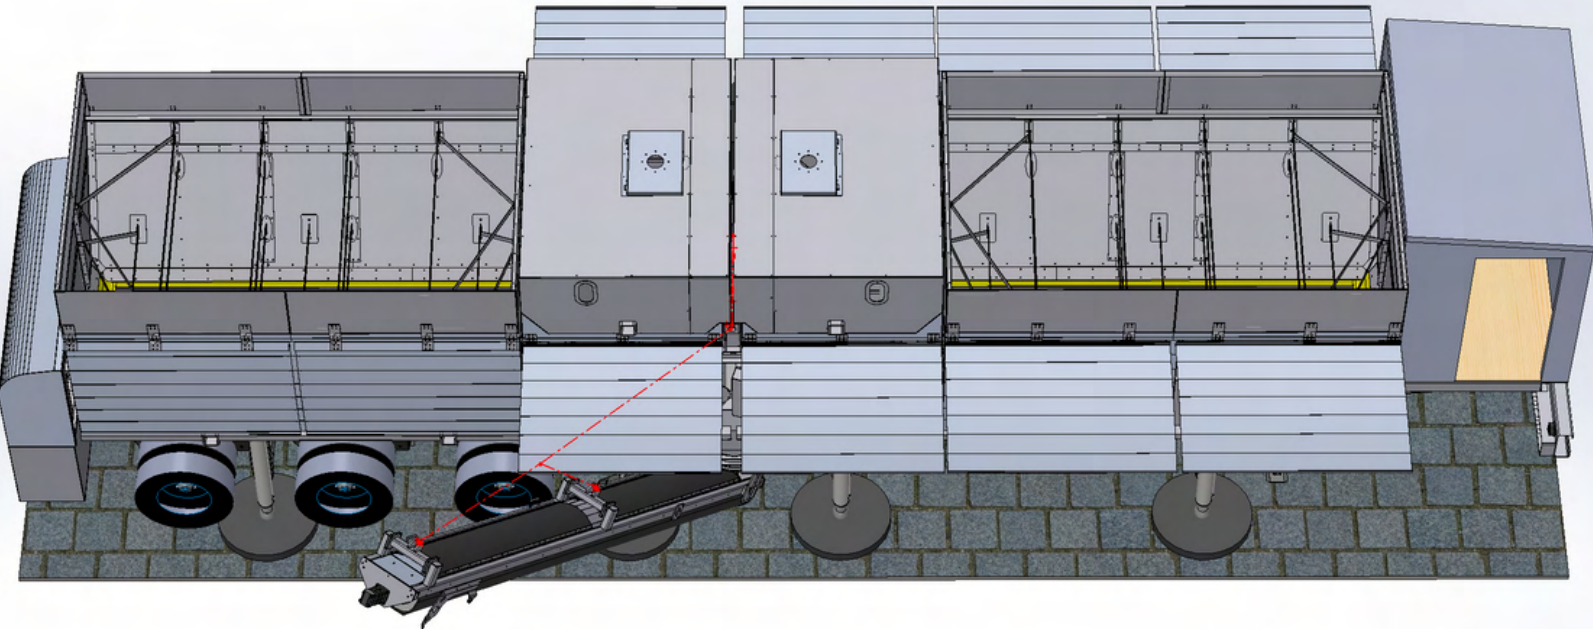

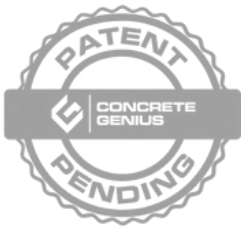

Transportation	48' Trailer (Auger and Generator transported separately)
Width	8' 6"
Height	13' 6"
Empty Weight	~36,000lbs

Cement

Storage	18 tons
Measurement	Load Beam x 6 per Silo
Feed	2 x 8" Screw (2 x 30 tons/hr)
Blow in ready	Yes

Admixture

Storage	Configurable, or Direct from 250gal Tote
With Standard Platform	Up to 6 (any combination of liquids and powders)
Per Expansion	+2
Accuracy	>99% (±2.5 ml/100 weight)

Technology

Each plant comes equipped with Concrete CloudOps™, our subscription-based proprietary in-house software which provides:

Next Generation Batching Software with Full Telematics

7,000 Data Points per yd³ retained and available for analysis

Full telematic monitoring and data tracking from web browser

Booking to Billing

Dispatching

Mix Design Creator

Calibration

GPS Tracking

Paperless Delivery Slips

About Us

Concrete Genius designs and manufactures high-quality Mixers, Mobile Batch Plants, Aggregate Heaters, and Cement Silos. Our industry-leading designs, and smart technology enhance efficiency and productivity where it matters most, helping concrete producers stay ahead of the curve. Proudly located in Athabasca, Alberta, our products are built by concrete producers, for concrete producers.

Discover the Genius behind our products, and let us propel your business to the next level!

Better, Smarter, Faster
- It's Genius!™
